

The Australian Chamber of Commerce actively engages members and friends via the AusCham website and weekly e-newsletters; these are both regularly updated to include current and upcoming news and events that matter to people wanting to be informed and kept up to date. The website and e-newsletters cover a range of business interests including, but not limited to upcoming events, co-hosted events, social news – ‘Out & About’, Member Updates & News, New Member Profiles, Announcements and Vietnam Business news. The information on the website and e-newsletter is topical and factual with something for everyone should you be searching for a business or government connection to the latest business news. Advertising on either platform allows businesses and associations to reach a likeminded audience to share your services and products. Please consider the rates contained in the document below – if you need further information or would like to book with AusCham, please refer to the links below.

As AusCham is a non-profit organization, we charge market rates for these services in order to maintain such platforms and we appreciate you utilizing such a dynamic chamber of commerce to share your message. If you want to consider multiple advertisements, AusCham will negotiate on pricing.
